

March 2009

ACH Opening Four New Quality Homes In Berkshire, Kent, Surrey & Sussex

With ACH homes proving very popular in 2008 (now in excess of 90% occupancy across the group) the plan is to consolidate and build upon the current successes. ACH will be carefully expanding its services during 2009 to provide more much needed high quality care to vulnerable adults with **learning disabilities, physical disabilities, autism, epilepsy and complex needs.**

Newton House, Newbury

[Newton House](#) in Thatcham, Newbury is a 6 bedded house, which will be opening in **March 2009**. With a large, **secluded garden, sensory cabin** and full en suite facilities to each bedroom, the facilities are of the highest standard. A **horticultural and farming day care facility** just around the corner provides real-life opportunities for clients to acquire new skills.

Byfield Court, Parkside House & Cloverdale House

[Byfield Court](#), Bobbing, Kent will open in the **summer** and we have already assessed several young adults who will be leaving residential schools in July 2009. Byfield Court will be a ten bedded house with a **fully independent flat** for a client who requires a slightly more autonomous setting.

[Parkside House](#), in Mitcham, Surrey will be a mixture of independent flats, studio flats and normal en suite bedrooms, which can cater for **learning disabilities** and **physical disabilities**. This home will provide a great variety and flexibility of accommodation for care managers and clients to choose from.

[Cloverdale House](#) in Hove, East Sussex will be a well appointed home for nine adults with **learning disabilities**, **autism** and **complex needs**. The house is located by the sea and close to all local amenities.
